

Circular Walk to Aston Hall

Four miles

Footpaths, quiet lanes & towpath

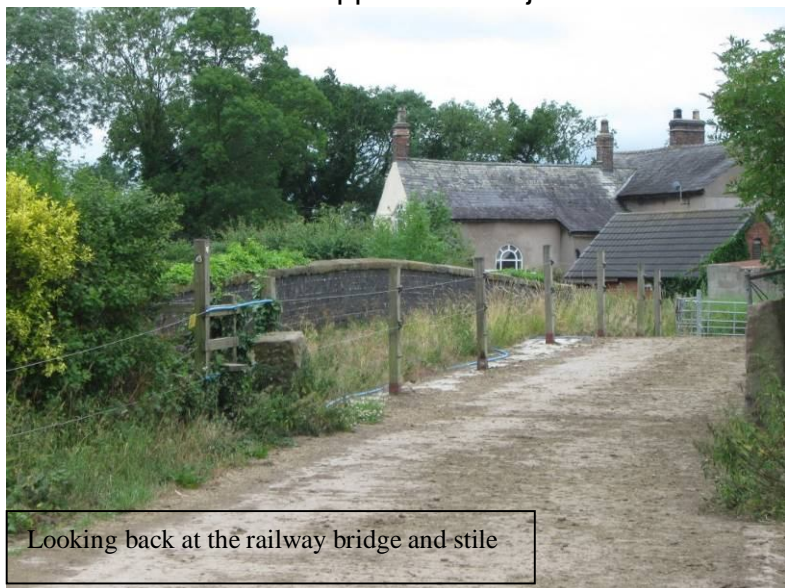

From Aqueduct Marina, walk down the drive to the road. Cross over the road and turn left. The verge is wide so there is no need to walk on the road surface. Follow the road until you come to the first turning on the right and turn right into Dairy Lane. Dairy Lane runs straight and crosses the railway. After the railway bridge there is a road leading off to the left. Turn right onto a track opposite the junction and walk

round the back of Aston Hall.

The footpath leads round to the left, right over the railway and then crosses a stile on the left (if you continue on the path to the right you will end up in the cottage garden).

After the next stile the footpath follows a green lane and then continues alongside a hedge on your right until it reaches

Looking back at the railway bridge and stile

Stile and Green Lane

Brickyard Bridge over the canal. Cross the bridge and the stile at the end, then turn back to your left, cross another stile and descend the steps to the towpath. Turn left, so that you walk under Brickyard Bridge with the canal on your right. Follow the towpath under Jackson's Bridge, past Minshull Lock and on to Nanney's Bridge. Pass under the bridge and then climb the steps to the road. Turn left on the road and walk back to the entrance to Aqueduct Marina, 100 yards on the left.
